VICTROLA™

EST. 1906

The good old days are back and better than ever! We all know that music makes memories and when you hear that song from 20, 30, or 40 years ago, we get that warm, nostalgic, and sentimental feeling from the past.

Innovative Technology, a manufacturer of distinctive nostalgia products for over 14 years, is proud to announce the acquisition of the 110 year old iconic trademark "Victrola"!

Victrola was first introduced to the American public in 1906 by The Victor Talking Machine Company of Camden, NJ and produced over 8 million units of distinctive record players and radios. The "Victrola" brand name, remembered by parents, grandparents and stories told, conjures bygone memories, warmth, and happiness.

With our collection of beautifully crafted products that allow you to play music from decades ago with our record players, cassette players, and CD players, we look forward to reintroducing the incredible nostalgic brand "Victrola" to our customer's homes.

Bright Tunes

bright tunes™

Music is such an important part of our daily lives! Whether it's soft music at the end of a long day to help us relax, upbeat music to get us energized, holiday music that brings family together, or our favorite songs from the past that bring back incredible memories.

Similarly, we decorate our lives with light! Whether it's a dim light to create a peaceful environment, flashing lights to get the party going, or beautiful accent lights to enhance any room in the house.

Innovative Technology is proud to present "Bright Tunes"! Bright Tunes is the ultimate combination of music & light! Bright Tunes is a 26 foot strand of decorative string lights (LED or Incandescent) with small yet powerful wireless Bluetooth speakers attached every 4 feet on the strand. The result...the ability to "Light up Your Life with Music"!

"Bright Tunes" has many applications and can be used all year round. Whether it's strung around the Christmas tree, in your bedroom/dorm room, or used outside on your patio/pergola/umbrella... "Bright Tunes" decorative string lights combined with multiple wireless Bluetooth speakers is the perfect way to decorate your home with lights & music!

Bright Tunes

Justin Power Products

Out of Power?

Justin™ RECHARGEABLE POWER BANKS & POWER CASES

We live in a world filled with portable technology. We use our smartphones to communicate and our tablets and MP3 players for entertainment. Although there are countless brands and devices in the market, they all have one thing in common... they will eventually run out of power. When you are on-the-go and need to recharge your dying phone, a fading tablet or portable device, our UL Safety Certified Justin Portable Power Products will be there for you!

Our extensive collection of portable power banks, tablet/smartphone power cases, automotive charging accessories and more will allow you to *Recharge Anytime, Anywhere!*

Cases & Keyboards

Getting Tired of Typing on a Touch Screen?

Cases & Keyboards

Touchscreen keyboards for the iPad, iPhone and iPod are fantastic for short bursts of text...but if you want to type long messages, emails and general writing... you are better off with a tactile keyboard for hours and hours of effortless typing!

Innovative Technology, through design and innovation, has developed an incredible collection of external keyboards that are the perfect combination of form, function & features. We utilize Bluetooth connectivity, ergonomic keyboards / case configurations and technology combinations that will satisfy all of your needs.
