**AC OPERATION**

Before operation, please make sure that the VOLTAGE on the set corresponds to the VOLTAGE of your local area. Unscrew the AC line cord, insert one end into the AC socket on the set and the other end into a standard AC outlet.

**BATTERY OPERATION**

Disconnect the AC cord set completely. Open the Battery Compartment door and insert 5 1.5V size "C" batteries into the battery compartment, with battery polarity as shown inside the battery compartment.

**RADIO OPERATION**

1. Slide the Function Switch to the RADIO position.
2. Slide the Band Switch to the desired band wave.
3. Turn the Volume Control to your desired radio station’s frequency.
4. Adjust the sound level by rotating the Volume Control.
5. To turn on the radio, simply slide the Function Switch to the RADIO position.

**ANTENNA**

For best reception, fully extend the FM Antenna to receive FM stations. For AM reception, the unit has a built-in antenna, turn the whole unit for best reception.

**CASSETTE OPERATION**

**Tape Playback**

Press the Eject button to open the cassette door, insert a cassette tape into the Cassette Compartment and push the cassette door to close. Slide the Function Switch to TAPE position and press the Play button to start playing the tape. Adjust the Volume Control to your desired volume level. To stop the tape, simply press the Stop button.

**Fast Forward and Rewind**

The tape can be fast forward or rewound by pressing the Fast Forward button or the Rewind button respectively.

**Pause Function**

During playback or recording, the tape can be stopped temporarily by pressing the Pause button. To continue playback or recording, press the Pause button once again.

**Auto Stop Function**

When the tape runs out or during playback or recording, the cassette operation will be stopped automatically. CAUTION: To avoid damage to the cassette mechanism or to the cassette tape, always press the Stop button between each operation.

**Cassette Operation**

1. Tune to desired radio program as described in the RADIO OPERATION section.
2. Insert a blank cassette tape into the Cassette Compartment.
3. Press the Function button and the Play button simultaneously to start recording. With the built-in Automatic Level Control (ALC), the best recording quality is automatically adjustable. Changing the volume level will not affect the recording.
4. To stop recording temporarily, press the Pause button. To continue the recording, press the Pause button once again.
5. Press the Stop button to stop recording.
6. When the tape runs out, the cassette operation will be stopped automatically.

**CD OPERATION**

**Playing CD / Getting Started**

Note: Should skipping of tracks occur during CD playing, by turning the volume down. When CD is playing, do not open the CD door.

1. Open the CD door by pressing the CD Open Door button. Put a CD into the CD Compartment and close the CD door. Set the Function Switch to CD position.
2. When the CD door is closed with a CD inside, the total number of tracks will be shown on the track display and it will go to Stop Mode.
3. If the CD door is not closed or there is no disc inside then it will go to Stop Mode.

**Play / Pause Mode**

When the Play/Pause button is pressed during Stop mode, the first track will be played. The Play/ Pause LED indicator will be lighted. The LED track display will show the specific number of tracks being played.

3. For interruption while the CD is playing, press the Play/Pause button once. The Play/Pause LED indicator will flash continuously.
4. Though the sound stops, the disc will continue to spin. To re-start playing, press the Play button. The music will start from the exact position where it was interrupted.
5. To stop the CD, press the Stop button once again whether the CD is in Play or Pause mode.

**CD Compartment**

Insert a blank cassette into the Cassette Compartment and close the CD door. Set the Function Switch to CD position.

**CD Operation**

1. Tune to desired radio program as described in the RADIO OPERATION section.
2. Insert a blank cassette tape into the Cassette Compartment.
3. Press the Function button and the Play button simultaneously to start recording. With the built-in Automatic Level Control (ALC), the best recording quality is automatically adjustable. Changing the volume level will not affect the recording.
4. To stop recording temporarily, press the Pause button. To continue the recording, press the Pause button once again.
5. Press the Stop button to stop recording.
6. When the tape runs out, the cassette operation will be stopped automatically.

**CASSETTE OPERATION**

1. Turn to desired radio program as described in the RADIO OPERATION section.
2. Insert a blank cassette tape into the Cassette Compartment.
3. Press the Function button and the Play button simultaneously to start recording.

**Reproduction**

The reproduction is line output. A telephone jack is provided on the back of the unit which can be inserted into a cassette recorder, a tape deck, or any other sound system that has a line input jack.

**Cassette Recording**

1. Slide the Function Switch to CD position.
2. Put a CD into the CD compartment with label on top.
3. Insert a blank cassette into the Cassette Compartment and press the Cassette Eject button.
4. Press the Cassette Record button and the Play button simultaneously of the cassette deck to start recording.
5. To temporarily stop recording, press the Cassette Pause button. To continue recording press the Cassette Pause button again.
6. Press Cassette Stop button of the cassette deck to stop recording, then stop CD playback by pressing CD Stop button of the CD player.

**Care and Maintenance**

1. Always turn off the unit after use.
2. Keep the unit away from magnetic objects, water, or heat sources.
3. Use a clean soft cloth moistened with lukewarm water to clean the cabinet. Never use chemical cleaners that could damage the finish of the unit.
4. Disconnect the unit from any power sources before cleaning.
5. To remove a disc from its storage case, press down on the center of the case and lift the disc out, holding it carefully by the edges.
6. Fingerprints and dust should be carefully wiped off the disc's recorded surface with a soft cloth. Unlike conventional records, compact discs have no grooves to collect dust and microscopic debris so gently wipe with a soft cloth should remove most particles. Wipe in a straight line from the inside to the outside of the disc. Small dust particles and light stains will have absolutely no effect on reproduction quality.
7. Never as chemicals such as record sprays, anti-static sprays, benzene, or other volatile substances to clean the disc. Dust should be returned to their cases after use. This avoids serious scratches that could cause the laser pickup to stop.
8. Do not expose discs to direct sunlight, high humidity, or high temperatures for extended periods. Long exposure to high temperatures can warp the disc. Do not stick paper or write anything with a ballpoint pen on the label side of the disc.

**SPECIFICATIONS**

- **Frequency Range:** AM 530 - 1710 KHz
- **FM 88 - 108 MHz**
- **Power Supply:** AC 120V - 60Hz
- **DC 9V**
- **Made in China**

**NOTE:** Please read and follow these instructions before using your unit.

**WARNING**

- **TO PREVENT ELECTRIC SHOCK; DO NOT USE THIS PLUG WITH AN EXTENSION CORD receptacle or other outlet unless the BLADES can be FULLY INSERTED to PREVENT BLADES EXPOSURE.**
- **TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.**

**LASER SAFETY**

This optical storage device complies with FDA performance standards for laser products Class 1.

**WARNING**

- The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, tablecloths, curtains, etc.
- It shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
- Never use chemicals such as record sprays, anti-static sprays, benzene, or other volatile substances to clean the disc. Fingerprints and dust should be carefully wiped off the disc's recorded surface with a soft cloth. Wipe in a straight line from the inside to the outside of the disc. Small dust particles and light stains will have absolutely no effect on reproduction quality.
- Discs should be returned to their cases after use. This avoids serious scratches that could cause the laser pickup to stop.
- Do not expose discs to direct sunlight, high humidity, or high temperatures for extended periods. Long exposure to high temperatures can warp the disc. Do not stick paper or write anything with a ballpoint pen on the label side of the disc.

**WARNING**

- The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, tablecloths, curtains, etc.
- No naked flame sources, such as lighted candles, should be placed on the apparatus.
- It shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
- Do not place the product in closed bookcases or racks without proper ventilation.

**CLASS 1 LASER PRODUCT**

The batteries (Battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire, or the like.

- Excessive sound pressure from earphones and head-phones can cause hearing loss.
- Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

**REPAIR OR REPLACEMENT AS PROVIDED UNDER THIS WARRANTY IS THE EXCLUSIVE REMEDY OF THE CUSTOMER.
