1. Read these instructions – All the safety and operating instructions should be read before this product is operated.
2. Keep these instructions – The safety and operating instructions should be retained for future reference.
3. Heed all warnings – All warnings on the appliance and in the operating instructions should be adhered to.
4. Follow all instructions – All operating and use instructions should be followed.
5. Do not use this apparatus near water – The appliance should not be used near water or moisture – for example, in a wet basement or near a swimming pool, and the like.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding plug. A polarized plug has two blades with one wider than the other. A grounding plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at the plugs, convenience receptacles, and at the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart or rack is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug the apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. The mains plug is used as disconnect device, the disconnect device shall remain readily operable.
16. To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall not be placed on apparatus.
17. The use of the equipment in moderate climate.
18. The battery shall not be exposed to excessive heat such as sunshine, fire or the like.

**CAUTION**
Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
WARNING
DO NOT INGEST BATTERY, CHEMICAL BURN HAZARD
The remote control supplied with a coin/button cell battery. This product contains a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the product and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

SAFETY INFORMATION
1. In order to shut off the power to this product completely, unplug the power cord from the wall outlet. Be sure to unplug the unit if you do not intend to use it for an extended period of time such as a vacation.
2. Use of controls and adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.
3. If this product develops trouble, contact a qualified service center, and do not use the product in a defective state.
4. WARNING: To reduce the risk of electric shock, this appliance has a polarized plug (one blade is wider than the other). This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install the proper outlet. Do not modify the plug in any way.

BEFORE USE
1. Choose unit installation location carefully. Avoid placing it in direct sunlight or close to a source of heat. Also avoid locations subject to vibrations and excessive dust, cold or moisture. Keep away from sources that hum, such as transformers or motors.
2. Do not open the cabinet as this might result in damage to the circuitry or electrical shock, if a foreign object should get into the set, contact your dealer.
3. Be sure not to handle discs with dirty fingers. Never insert a disc that has a crack on the surface.
4. When removing the power plug from the wall outlet, always pull directly on the plug, never pull the cord.
5. To keep the laser pickup clean, do not touch it, and do not forget to close the disc tray.
6. Do not attempt to clean the unit with chemical solvents as this might damage the finish. Use a clean, dry cloth.
7. In order to shut off the power to this product completely, unplug the power cord from the wall outlet. Be sure to unplug the unit if you do not intend to use it for an extended period of time, such as a vacation.

BEWARE OF CONDENSATION

When the player (or a compact disc) is moved from a cold to a warm place or is used after a sudden temperature change, there is a danger of condensation. Water vapor in the air could condense on the mechanism or the laser pickup. If droplets of water form on these parts, correct playback will be impossible because the laser cannot read the information from the disc correctly. To prevent this, if you are going to use the player in a condition where condensation could occur, you should leave the player for 1 or 2 hours after plugging it into an AC outlet depending on the amount of condensation. If this is done, the player will stabilize at the temperature of its surroundings.
A. **FUNCTION BUTTON**: Select a source
B. **ON/STANDBY BUTTON**: Set the unit to ON / STANDBY
C. **RANDOM**: Select for random playback
D. **BALANCE RIGHT**: Increase right speaker output
E. **BALANCE LEFT**: Increase left speaker output
F & N. **TREBLE (+/-)**: Increase or decrease treble
G & Q. **VOLUME + / -**: Adjust the volume level
H & S. **Next / Previous**: Skip tracks forward or backward
I. **Play/Pause**: Pause and resume playback
J & T. **TUN- / TUN+**: Adjusts the frequency in FM mode
K. **EJECT/ENTER**: In CD mode, eject and close CD tray
L. **PROGRAM**: Set program playback
M. **REPEAT**: Set playback to repeat
O & P. **BASS (+/-)**: Increase or decrease bass
R. **STOP BUTTON**: Stop playback
U. **SCAN**: Scans available radio stations
GETTING STARTED

CONNECTING THE EXTERNAL SPEAKERS
The speaker input sockets are located at the back of the main unit.

1. Unwrap the speaker wire from the left speaker and plug it into the left (L) speaker socket on the main unit.
2. Unwrap the speaker wire from the right speaker and plug it into the right (R) speaker socket on the main unit.
3. Make sure the speaker cables are not run in areas where they could cause danger.

PRELIMINARY
Before using your audio system, the protective packing should be removed from the CD compartment. To remove the protective packing:

1. Press the EJECT/ENTER button to the right of the CD door to open the CD door.
2. Remove the protective packing from the CD compartment.
3. Close the CD door by pressing the EJECT/ENTER button again.

FM Antenna
Unwrap the FM antenna and extend it fully. You may need to adjust the position of the antenna to get optimum reception.

Connecting to a Power Source
1. Check that the mains voltage on the rating plate on the back of the main unit is the same as the voltage in your area.
2. Plug the electric plug into the wall socket. The CD Stereo System is now ready for use.

Standby Control
Press the POWER button to turn the unit ON. Press again to turn the unit OFF.

NOTE: When leaving the unit unattended for long periods (such as vacations), please disconnect the power plug from the mains supply.

LISTENING TO THE RADIO

1. Press the FUNCTION BUTTON to switch to the FM RADIO. The display will show a radio station: “87.5”.
2. Tune to a desired radio station. The frequency is indicated on the display.
   • MANUAL TUNING: Press the TUN+ or TUN- button briefly and the frequency will tune up or down.
   • AUTO SEARCHING: Press the TUN+ or TUN- button for more than 2 seconds, the radio frequency will start to change on the display. Once a station is found, the radio will stop searching and start to broadcast immediately.
3. Re-position the antenna if necessary.
SETTING FM RADIO PRESETS
The CD Stereo System can store up to 20 radio station presets.

To Manually Set Presets
1. Find the radio station you would like to save.
2. Press the PROGRAM button on the remote control.
3. Press NEXT BUTTON / PREVIOUS BUTTON to select the preferred Preset Number. The display will show “P 01, P 02, etc...”
4. Press the PROGRAM button again to save the station.
5. Repeat steps 1-4 until you have finished saving your presets.
6. To navigate through the stored presets, press the PREVIOUS BUTTON or NEXT BUTTON

NOTE: If you press and hold the SCAN button, it will delete all of the previous presets you have stored and automatically reprogram all 20 presets.

To Automatically Save Presets
Using the SCAN feature, the CD Stereo System can automatically find and save your presets.
1. Press and hold the SCAN button. The unit will begin searching for radio stations with clear reception.
2. Once a station is found the unit will save it as a preset. The unit will continue searching for and save stations until all 20 presets have been filled.
3. To navigate through the stored presets, press the PREVIOUS BUTTON or NEXT BUTTON

NOTE: If you press and hold the SCAN button, it will delete all of the previous presets you have stored and automatically reprogram all 20 presets.

ADJUSTING THE VOLUME

VOLUME ADJUSTMENT
Twist the VOLUME KNOB to adjust the volume. The volume level will be shown in the LED Display in the top right corner of the unit.

NOTE: Depending on the type of music/audio output from the CD Stereo System, the 2 Volume (VU) Meters might not move at lower volumes. In some cases, the volume must be around “#20 or higher” to see very active movement.

BALANCE
Twist the BALANCE KNOB to adjust the volume between the left speaker and the right speaker. The volume of the left speaker and right speaker is equal when the LED display shows “00”.

TREBLE AND BASS
Twist the TREBLE KNOB and BASS KNOB to adjust the treble and bass levels from “-3” to “3”.
LISTENING TO A CD

1. Press FUNCTION button until the display reads “CD”.
2. Press the EJECT/ENTER button to open the CD door, put a CD onto the CD tray with the printed label facing up (towards you). To close the CD door, press EJECT/ENTER button again.
   Note: Remember to remove the CD when you are finished listening.

To Play a CD When Stopped: Press the PLAY/PAUSE button. The disc will play from track 1.

To Pause a CD While Playing: Press the PLAY/PAUSE button. The disc will pause and pause indicator appears on the display. Press the PLAY/PAUSE button again to resume playback.

To Stop a CD While Playing: Press the STOP button.

To Change Tracks: Press PREVIOUS BUTTON or NEXT BUTTON.

To Search During Playback: Press and hold the PREVIOUS BUTTON or NEXT BUTTON until the desired section is located. While searching, sound will be played at a distorted speed. Playback returns to normal when the button is released.

REPEATING/RANDOM PLAYBACK OF A TRACK OR A CD

Press the REPEAT button on the remote control to circle the play mode:

- Repeat 1---Press the REPEAT button on the remote control once and the current track will be played continuously
- Repeat All---Press the REPEAT button again and ALL tracks on the current disc will be played continuously.
- Normal playback --- Press REPEAT button again to resume normal playback.
   Note: Pressing the STOP button will stop playback and the play mode will be cleared.

PROGRAM PLAY

Program play must be set when the CD is stopped. You can program up to 20 tracks in any order.

1. Press STOP button and then press PROGRAM button on the remote control.
2. Press NEXT BUTTON / PREVIOUS BUTTON to select a track. The display shows the selected track.
3. Press the PROGRAM button on the remote control to add the track into the program list.
4. Repeat steps 2 and 3 until you complete the programming. You can program up to 20 tracks.

To Start the Program Play: Press PLAY/PAUSE button.

To Pause or Stop a Program Play: Press PLAY/PAUSE or STOP button.

To Replay a Program: Press PLAY/PAUSE button.

To Review the Content of a Program: Press STOP button then keep pressing the PROGRAM button to review the programmed tracks.

To Clear the Program: Press STOP button twice or open and close the CD door.
DISC MAINTENANCE

Depending on the quality of the disc, and the condition of the recording, some CD-R/CD-RW discs may not be playable.

1. Always place the compact disc in the disc tray with the label facing upward. (Compact discs can be played only on one side).
2. To move a disc from its storage case, press down on the center of the case and lift the disc out, holding it carefully by the edges.
3. If the disc becomes dirty, wipe the surface from the center hole outward towards the outer edge with a soft, dry cloth.
4. Never use such chemicals as record spray, antistatic sprays or fluid, benzine or thinner to clean the discs. Such chemicals will do irreparable damage to the disc’s plastic surface.
5. Discs should be returned to their cases after use to avoid serious scratches that could cause the laser pick up to skip.
6. Do not expose discs to direct sunlight or high humidity and temperature for extended periods. Long exposure to high temperatures will warp the discs.
7. Printable CD-R and CD-RW discs are not recommended, as the label side might be sticky and damage the unit.
8. Use a soft oil-based felt-tipped pen to write the information on the label side. Never use a ball-point or hard-tipped pen, as this may cause damage to the recorded side.
9. Do not use CDs with an irregular shape (octagonal, heart-shaped, business card size, etc). CDs of this sort can damage the unit.
10. If you have any doubts of using CD-R/CD-RW disc, read the precautions supplied with the disc, or contact the disc manufacturer directly.
AUX-IN OPERATION

External (auxiliary) audio sources such as tablets, smartphones or MP3 players, can connect to the CD Stereo System via aux-in.

The unit has 2 AUX INs. AUX IN 1 SOCKET at the front of the unit, AUX IN 2 SOCKET at the rear of the unit.

1. Press POWER button to turn the unit ON and then press FUNCTION button to select “AUX1” or “AUX2”.
2. Set the volume to the minimum level with the VOLUME KNOB.
3. Plug the AUX IN cable (not included) into the AUX IN socket at the unit.
   For AUX IN 2 SOCKET, plug one end of the AUX IN cable (not included) into the color coded AUX IN sockets at rear of the unit. Always make sure the white plug is connected to the white socket and the red plug in the red socket.
4. Plug the other end of the cable into the headphone or Line-Out jack of the external source.
5. Turn on the external audio device and set it to play. Turn the external audio device’s volume up to 2/3. If necessary, adjust the volume on the CD Stereo System by turning the VOLUME KNOB.

BLUETOOTH OPERATION

External devices that have a built-in Bluetooth feature can connect wirelessly to the CD Stereo System.

GETTING CONNECTED

1. Press the FUNCTION button until the LED Display shows “BLUE”.
2. Set the Bluetooth function of your external device to ON and begin searching for devices.
   NOTE: The effective distance between your external device and this apparatus is 10 meters (33 feet).
3. Once “ITCDS-5000a” appears on the paired devices list of your external device, select it.
4. A beep will be heard that indicates a connection has been established.
5. A few seconds later your Bluetooth connection should be ready to use.

PLAYING MUSIC FROM AN EXTERNAL BLUETOOTH DEVICE

1. Follow the “GETTING CONNECTED” steps above to pair your external device.
2. Turn on the music player program on your external device and set it to play.
   Normally, you can control music playback with the PLAY/PAUSE, PREVIOUS BUTTON and NEXT BUTTON on the CD Stereo System.
   Note: Some function buttons may not work with all devices.

USING THE REMOTE CONTROL

The Remote Control Unit can operate the unit from a distance. When operating the remote control unit, point it towards the front panel of the unit.

• Even if the remote control unit is operated within the effective range, remote control operation may be impossible if there are any obstacles between the unit and the remote control.
• If the remote control unit is operated near other appliances which generate infrared rays, or if other remote control devices using infrared rays are used near the unit, it may operate incorrectly. Conversely, the other appliances may operate incorrectly.

TO ACTIVATE THE REMOTE CONTROL
The remote control comes with a cell battery already installed. To activate the battery, remove the transparent tab at the bottom of the remote control. The remote control is now ready to use.

BATTERY REPLACEMENT
If the distance required between the remote control unit and main unit decreases, the battery is exhausted. In this case, please replace the battery with a new one.

To Replace With a New Battery
1. Remove the battery compartment cover as per the illustration on the right.
2. Observe the correct polarity and install a 3Vdc lithium battery (CR2025).
3. Close the cover.

BATTERY PRECAUTIONS
• Be sure to insert the battery with correct positive + and negative - polarities.
• Refer to the precautions on the battery labels.
• When the remote control unit is not to be used for long periods of time (more than a month), remove the battery from the remote control unit to prevent it from leaking. If it leaks, carefully wipe away the liquid inside the battery compartment and replace the battery with a new one.
• Do not heat or disassemble batteries and never dispose of old batteries by throwing them into a fire.
In case of trouble with the unit, please look through the problems below and see if you can solve them yourself before calling your dealer.

FCC STATEMENT

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CALIFORNIA PROP 65 WARNING

"WARNING" This product contains a chemical known to the State of California to cause birth defects or other reproductive harm. For more information on these regulations and a list of chemicals, log on the following website address:
http://www.oehha.ca.gov/prop65.html

INDUSTRY CANADA

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.
Innovative Technology Electronics Corp.
Limited Warranty: 90 Days Labor, One Year Parts

Innovative Technology Electronics Corp. (IT) warrants the product to be free from “Defects” in materials under normal use for a period of “One Year” from the date of the original purchase. The Warranty is “Not” transferable. IT agrees, within the initial “90 Day” period, to repair or replace the product if it is determined to be defective at “No Charge”. It is further agreed that IT will cover the cost to repair or replace damaged “Parts” only for a total period of “One Year” from the date of the original purchase. The warranty does not cover cosmetic damage, antennas, AC cords, cabinets, headbands, ear-pads, or damage due to line power surges, connection to improper voltage supply or settings, misuse, mishandling, accident, acts of God or attempted repair by an unauthorized service agent.

To obtain service, the purchaser MUST present an original sales receipt / proof of purchase. Please contact us at www.ithomeproducts.com to request an RMA (Return Material Authorization) number to return products for service or replacement. Returns without an RMA number on the package will be refused and returned to sender. Upon receipt of the returning item and our full inspection (IT) may issue a replacement to customer for the same item or of one that has equivalent value and features. To return an item, supply full name, return address, phone number, item purchased, receipt of purchase and reason for return to obtain RMA number.

All returns must be in the original packaging or reasonable substitute to prevent damage. Customer “Must” include full name, shipping address and telephone number inside of package. No return will be shipped back to a PO Box or APO address.

Please include your check or money order in the amount of:
• USD$5.00 for items $10.00 to $39.99 (Price Paid Per Unit)
• USD$10.00 for items $40.00 to $99.99. (Price Paid Per Unit)
• USD$16.00, for items $100.00 and up. (Price Paid Per Unit)
• Shipping fees are non-refundable

to be payable to Innovative Technology Electronics Corp. (for handling and return shipping charges) (IT) will not be responsible for delays or unprocessed claims resulting from a purchaser’s failure to provide any / all of the necessary information. Send all inquiries or RMA request via our website www.ithomeproducts.com/support.
