Important Safety Instructions

When using electrical products, basic precautions should always be followed including:

1. **Read Instructions** - All the safety and operating instructions should be read before the product is operated.
2. **Retain Instructions** - The safety and operating instructions should be retained for future reference.
3. **Heed Instructions** - All warnings on the product and in the operating instructions should be adhered to
4. **Follow Instructions** - All operating and user instructions should be followed.
5. **Cleaning** - Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
6. **Attachments** - Do not use attachments not recommended by the product manufacturer as they may cause hazards.
7. **Water and Moisture** - Do not use this product near water—for example, near a bath tub, wash bowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc.
8. **Accessories** - Do not place this product on an unstable surface. The product may fall, causing serious injury to a child or adult and serious damage to the product. Use only with a stand, bracket, or table recommended by the manufacturer, or sold with the product. Any mounting of the product should follow the manufacturer's instructions, and should use a mounting accessory recommended by the manufacturer.
9. **Transporting** - This product should be moved with care to avoid damage or injury.
10. **Ventilation** - Slots and openings in the cabinet are provided for ventilation, to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or similar surface. This
product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer’s instructions have been adhered to.

11. **Power Sources** - This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operation instructions.

12. **Main Plug** - The main plug is used as the disconnect device, the disconnect device shall remain readily accessible.

13. **Power - Cord Protection** - Power-supply cords should be routed so that they are not likely to be trapped in any way.

14. **Lightning** - For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the product due to lightning and power-line surges.

15. **Power Lines** - An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

16. **Overloading** - Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.

17. **Object and Liquid Entry** - Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. The apparatus shall not be exposed to dripping or splashing, and no object filled with liquids such as a vase of flower, shall be placed on the apparatus.

18. **Servicing** - Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

19. **Damage Requiring Service** - Unplug this product from the wall outlet and
refer servicing to qualified service personnel under the following conditions:
   a. If the power-supply cord or plug is damaged.
   b. If liquid has spilled, or objects have fallen into the product.
   c. If the product has been exposed to rain or water.
   d. If the product does not operate normally by following the operating
      instructions. Adjust only those controls that are covered by the operating
      instructions, as an improper adjustment of other controls may result in
      damage and will often require extensive work by a qualified technician to
      restore the product to its normal operation.
   e. If the product has been dropped or damaged in any way, and the
      product exhibits a distinct change in performance-this indicates a need for
      service.

20. Replacement Parts - When replacement parts are required, be sure the
    service technician has used replacement parts specified by the manufacturer
    or have the same characteristics as the original part. Unauthorized
    substitutions may result in fire, electric shock, or other hazards.

21. Safety Check - Upon completion of any service or repairs to this product,
    ask the service technician to perform safety checks to determine that the
    product is in proper operating condition.

23. Heat - The product should be situated away from heat sources such as
    radiators, heat registers, stoves or other products (including amplifiers) that
    produce heat.

   Warning: To reduce the risk of fire or electrical shock, do not exposed the
   apparatus to rain or moisture. No naked flame sources such as candles shall be
   placed on top of the apparatus.

   Caution: Changes or modifications not expressly approved by the manufacturer
   could void the user’s authority to operate this device.

   Caution: Usage of controls or adjustments or performance of procedures other
   than those specified herein may result in hazardous exposure.
This appliance is suitable for a joyful get-together or a small party. The small-size portable design and good quality sound performance will make your get-together or party much lively and joyful.

Accessories
The product contains accessories listed below:
3.5mm to 3.5mm Aux Cable
RCA to 3.5mm Aux Cable
Basic Operation

POWER SUPPLY
Plug the AC cord plug into the household outlet on the wall.

AC SOCKET
This apparatus can provide a 120V ~ 60Hz AC source to a unit which connected to the apparatus.
Connect the AC plug of an external audio device into the AC socket at rear of the appliance.

AUX PLAYING
Turn on the POWER toggle switch to turn on the appliance. And the power indicator will light up.
Insert an external audio device into the AUX IN socket. The appliance provides two AUX IN sockets.
1. an RCA socket at rear of the appliance;
2. a 3.5mm socket on top of the appliance;
Turn the AUX IN TOP/BACK switch to either TOP or BACK to select your audio source.
Rotate the VOLUME knob to adjust the sound level.
Rotate the BASS knob to adjust the bass tone.
Rotate the TREBLE knob to adjust the treble tone.
Turn off the POWER toggle switch to turn off the appliance.
GUITAR PLAYING
Turn on the POWER toggle switch to turn on the appliance. And the power indicator will light up.
Insert a guitar plug into the GUITAR socket on the front panel.
Rotate the VOLUME knob to adjust the sound level.
Rotate the MIC/GUITAR VOL knob to adjust the Guitar sound level.
Rotate the ECHO knob to adjust the echo tone.
Turn off the POWER toggle switch to turn off the appliance.

MIC OPERATION
Turn on the POWER toggle switch to turn on the appliance. And the power indicator will light up.
Insert a microphone (not included) into the MIC socket on the front panel.
Rotate the VOLUME knob to adjust the sound level.
Rotate the MIC/GUITAR VOL knob to adjust the microphone sound level.
Rotate the ECHO knob to adjust the echo tone.
Turn off the POWER toggle switch to turn off the appliance.

Specifications
Power Supply: AC 120V ~ 60Hz
AC Output: 120V ~ 60Hz
Speaker: 4 ohm, 30 W
MAX. Power Consumption: 40W

Design and specification are subject to change without notice.
Instructions shall caution users that modifications not approved by the party responsible for compliance could void user's authority to operate the equipment.

The following or equivalent as appropriate:

"NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help."

Statement that the product complies with Part 15 (i.e. "This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.")

Innovative Technology Electronics Corp.
Limited Warranty
90 Days Labor, One Year Parts

Innovative Technology Electronics Corp. (IT) warrants the product to be free from “Defects” in materials under normal use for a period of “One Year” from the date of the original purchase. The Warranty is “Not” transferable. IT agrees, within the initial “90 Day” period, to repair the product if it is determined to be defective at “No Charge”. It is further agreed that IT will cover the cost to repair or replace damaged “Parts” only for a total period of “One Year” from the date of the original purchase. The warranty does not cover cosmetic damage, antennas, AC cords, cabinets, headbands, ear-pads, or damage due to line power surges, connection to improper voltage supply or settings, misuse, mishandling, accident, acts of God or attempted repair by an unauthorized service agent.

To obtain service please contact IT for Merchandise Return Authorization (MRA) number by sending a self addressed stamped envelope to the address below. The original purchaser MUST present a sales receipt / proof of purchase indicating date of purchase, amount paid, and place of purchase. Send the unit prepaid to the address below in the original packaging or reasonable substitute to prevent damage. You “Must” include your full name, shipping address and telephone number and Merchandise Return Authorization (MRA) number for our reference. No return will be shipped back to a PO Box. Please include your check or money order in the amount of $12.00, payable to Innovative Technology Electronics Corp., to cover handling and return shipping charges. IT will not be responsible for delays or unprocessed claims resulting from a purchaser’s failure to provide any or all of the necessary information.
