3,000mAh Power Case
Designed for iPhone® 5s/5

Model:
JP-140-3000i

USER MANUAL
BEFORE INSTALLING AND USING THE PRODUCT, PLEASE READ THE INSTRUCTIONS THOROUGHLY, AND RETAIN THEM FOR FUTURE REFERENCE.

PRODUCT OVERVIEW

1. Power Button
2. Lightning™ Connector
3. Power Indicator LEDs
4. Stand Release Button
5. Micro USB Input
6. Headphone Opening

Included:
(1x) iPhone 5s/5 Power Case, (1x) Charging Cable
(1x) 3.5mm Headphone Extension Cable
To ensure safe operation, check your device’s compatibility with Power Case specifications prior to use.

**Battery Cell:** Lithium-Polymer

**Capacity:** 3,000mAh/3.7V; 11.1W

**Input:** 5V-1A

**Output:** 5V-1A (Max)

**Charging Time:** 5.5 hours

**Dimensions:** 5.7 x 2.6 x .6in (146 x 66 x 16mm)

---

### CHECKING THE POWER LEVELS

To view the battery status, press the Power Button. The Power Indicator LEDs indicate the Power Case’s power level according to the diagram.

When charging the Power Case, the LEDs will FLASH according to the current power level (i.e., at 40% charged, one LED will be lit, the second will be flashing). Once the Case is fully charged, the LEDs will stop flashing.

To view the power level while charging your iPhone, press the Power Button. The LEDs will light up for approximately 3 seconds, then turn OFF.

**LEDs While Recharging Power Case:**

- 1–25% Charged
- 26–50% Charged
- 51–75% Charged
- 76–99% Charged
- 100% Charged

**LEDs While Charging iPhone:**

- Completely Drained
- 1–25% Charge
- 26–50% Charge
- 51–75% Charge
- 76–100% Charge
Before first use, it is recommended you charge the Power Case via AC power plug (not included). The Case will take approximately 5.5 hours to charge from 0-100%.

1. **Charging the Power Case:**
   Plug the supplied Micro USB Charging Cable into the Case’s Micro USB Input. Insert the USB end of the cable into a computer or AC power source with a 5V USB output. The Power Indicator LEDs will begin flashing. Once fully charged, the LEDs will remain lit.
   *Note: It is recommended to keep charging the Power Case for approximately 1 hour after the LEDs stop flashing.*

2. **Inserting iPhone 5s/5 into Power Case:**
   Place your iPhone into the Power Case by sliding the Stand Release Button to the left and pulling the stand forward. Carefully dock your iPhone onto the Lightning Connector. Clip the stand back into place.

3. **Charging your iPhone 5s/5:**
   Once your iPhone has been inserted into the Power Case, **press the Power Button on the bottom of the Power Case for 3 seconds to begin charging.** Charging will continue until your iPhone is fully charged or the Case’s internal battery has drained.

4. **Using the Headphone Jack:**
   Undock your iPhone from the Power Case. Feed your headphone jack through the Headphone Opening, then plug it into your iPhone. Re-dock your iPhone into the case. *Please note: In some cases, it is required to use the 3.5mm*
Headphone Extension Cable. To use, plug your headphone jack into the extension cable. Take the Headphone Extension Cable’s jack and feed it through the Headphone Opening and plug it into the iPhone. Re-dock your iPhone into the case.

TROUBLESHOOTING

1. iPhone is Not Charging:
   • Power Button has not been activated; press the Power Button for 3 seconds and check that the LEDs light up
   • iPhone is not docked correctly on the Lightning Connector; re-dock the iPhone
   • Lightning Connector is damaged; please contact manufacturer
   • Power level of Case is too low; recharge the Case
   • The voltage of the device you are attempting to charge is incompatible; check voltage specifications

2. Power Case is Not Charging:
   • Charging cable/tips are not connected correctly; re-connect and attempt charging again
   • Charging cable/tips are damaged; please contact manufacturer
   • Charging source is not compatible; check voltage specifications

PLEASE NOTE

• The Power Case comes pre-packaged with a partial charge, NOT a full charge. We recommend fully charging your Case before first use for best performance.
• If your iPhone is not charging, this may be a sign that the battery level of the Power Case is very low and you need to recharge it.
• It is normal for the Power Case to become slightly warm during use.

MAINTENANCE

In order to keep your Power Case operating at maximum potential, please follow these guidelines:

1. Recharge the Power Case every 2 months when not in use. Charge to at least 40%, as this will extend the battery life.

2. Keep your Power Case dry and away from moist and corrosive materials. DO NOT get wet. In addition, never expose to high heat environments. Avoid extreme temperatures of hot or cold as it will decrease the overall battery performance.

SAFETY PRECAUTIONS

Please read this section carefully before using.

• Only use this product with confirmed power sources that follow device specifications.

• Only use specified charging methods or reputable branded chargers that are compatible with device specifications.

• Do not use product beside or in close proximity to a heat source such as a ventilation heat vent, convection heater, burner, etc.

• Do not expose device to moisture or submerge it in liquid. Do not leave device inside an excessively hot or cold environment. Store device in a cool and dry environment at all times.

• Avoid dropping or applying excessive shock and force to device. Do not use in unprotected outdoor environments or in exposed sunlight for a prolonged period of time.

• Do not use device in a confined space. Restricted or insufficient airflow will put device at risk of
overheating.

- Avoid touching metal prongs when plugging and unplugging device from power source.
- Do not use harsh chemicals to clean device. Use a damp cloth with warm water to wipe off any dirt. Only clean the device when it is unplugged from any power source.
- Ensure charge port is clear of any foreign objects before using.
- Do not force incompatible connectors into any port.
- Do not use damaged cables and wires on device. Avoid using cables to charge Power Case other than supplied for optimal and safe operation. Supplied cables have gone through rigorous testing to ensure compatibility.
- Do not attempt to disassemble the device. Any attempts to do so will void all warranties on this product. Do not attempt to remove or salvage batteries for other purposes.
- If you find that your Power Case is excessively hot, is emitting odor, is deformed, is cut or is experiencing an abnormal phenomenon, immediately stop use.

**BATTERY PRECAUTIONS**

Read all instructions and warnings prior to using this product. This device contains a Lithium-Polymer battery. Improper use, storage and disposal may cause leaks, expansions and explosions that could lead to fires, health concerns, bodily injury and property damage.

- Upon the event where the device may be broken, shattered, or in any way physically compromised DO NOT USE.
- Do not dispose device into standard garbage disposal sites. Dispose of device at available
Battery Recycling Sites after fully discharging battery. Not doing so may violate local disposal laws and regulations.

- Opening of product and/or removal of battery will render product inoperative and voids manufacturer warranties, dispose of remaining product components in accordance with local laws.
- If unusual expansion is detected, disuse device immediately.
- In case of fire, use lithium approved “Class D Type” Fire Extinguishers on device.
- Do not expose or dispose of device into fire.
- In the unfortunate case of a leak and electrolyte comes in contact with skin, wash area with water and soap. If electrolyte makes contact with eyes, flush with generous amounts of water for 15 minutes and seek medical attention immediately. Avoid inhaling fumes if applicable. Do not attempt to reuse damaged device.
- Do not charge device with unspecified power source. Only use specified method of charge and reputable brand OEM chargers compatible with device specifications.

This device has the function of overcurrent and short-circuit protection circuit. If no reaction to charge other devices when power is on, please charge it to activate the device.

FCC STATEMENT

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

NOTE: This equipment has been tested and found to
comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRED OPERATION.

**CALIFORNIA PROP 65 WARNING**

WARNING: This product contains chemicals known to the State of California to cause birth defects or other reproductive harm. For more information on these regulations and a list of chemicals, log on to the following website address: http://www.oehha.ca.gov/prop65.html
INNOVATIVE TECHNOLOGY ELECTRONICS CORP. LIMITED WARRANTY: 90 DAYS LABOR, ONE YEAR PARTS

Innovative Technology Electronics Corp. (IT) warrants the product to be free from “Defects” in materials under normal use for a period of “One Year” from the date of the original purchase. The Warranty is “Not” transferable. IT agrees, within the initial “90 Day” period, to repair or replace the product if it is determined to be defective at “No Charge”. It is further agreed that IT will cover the cost to repair or replace damaged “Parts” only for a total period of “One Year” from the date of the original purchase. The warranty does not cover cosmetic damage, antennas, AC cords, cabinets, headbands, ear-pads, or damage due to line power surges, connection to improper voltage supply or settings, misuse, mishandling, accident, acts of God or attempted repair by an unauthorized service agent.

To obtain service, the purchaser MUST present an original sales receipt / proof of purchase. Please contact us at www.ithomeproducts.com to request an RMA (Return Material Authorization) number to return products for service or replacement. Returns without an RMA number on the package will be refused and returned to sender. Upon receipt of the returning item and our full inspection (IT) may issue a replacement to customer for the same item or of one that has equivalent value and features. To return an item, supply full name, return address, phone number, item purchased, receipt of purchase and reason for return to obtain RMA number.

All returns must be in the original packaging or reasonable substitute to prevent damage. Customer “Must” include full name, shipping address and telephone number inside of package. No return will be shipped back to a PO Box or APO address.
Please include your check or money order in the amount of:

- USD$5.00 for items $10.00 to $39.99 (Price Paid Per Unit)
- USD$10.00 for items $40.00 to $99.99 (Price Paid Per Unit)
- USD$16.00, for items $100.00 and up (Price Paid Per Unit)
- Shipping fees are non-refundable

To be payable to Innovative Technology Electronics Corp. (for handling and return shipping charges) (IT) will not be responsible for delays or unprocessed claims resulting from a purchaser's failure to provide any/all of the necessary information. Send all inquiries or RMA request via our website: www.ithomeproducts.com/support
