I want that ...HAPPY FATHER'S DAY

COMPILED BY MELANIE HITCHCOCK

Dad won't have to DRESS HIMSELF

MagnaReady has created a men's dress shirt that will literally dress Dad itself. The MagnaReady shirt looks just like any other dress shirt hanging in his closet, but hidden inside the placket of the shirt are powerful magnets that link together for a secure closure. Decorative buttons grace the exterior of MagnaReady shirts for a crisp and professional appearance. Dad will never have to worry about missing a button or lining them up wrong again.

MagnaReady men's dress shirts are available in solid white and chambray, and blue plaid.

Available at magnaready.com; \$64.95 or two shirts for \$119 with free shipping

Express your feelings with a PERSONALIZED GIFT

Design a key chain that also serves as a bottle opener, an ID, and has an inspirational message perfect for Dad! There are several different styles to choose from. Both sides of the keychain can be personalized with initials, a premade saying, or a graduation class date.

Available at nelleandlizzy.com; \$24-\$39

Improve his GOLF GAME

SensoGlove works as a personal golf trainer, featuring a small, sweat-proof 1.2-inch LED digital monitor that analyzes the pressure of the swing through highly responsive sensors placed throughout the glove. By swinging the golf club, SensoGlove provides real-time audio and visual feedback at 80 times per second to warn you if you exceed your target level of grip pressure.

SensoGlove trains golfers to avoid bad habits and injury and quickly shows them how to hold the club, improving every part of their game, from backswing, downswing, impact, follow-through, to driving, putting, and chipping.
