**ITGS-450 Photo Dialer  
Manual**

**Features:**

- Large, easy to see, one-touch push buttons (12 buttons).
- This one-touch photo dialer can store up to 12 telephone numbers.  
Each number can be up to 16 digits long.
- This photo dialer has a keypad on the bottom, which is covered by a pullout door.  
This keypad is used to set the telephone numbers for each picture.

**I. FEATURES WITH DIAGRAM**

- 1. Direct Memories (M1~M12)
- 2. Set Key
- 3. Number Keys (0,1~9,\*,#)
- 4. Line Jack
- 5. Phone jack

## II. OPERATION

### 1) Installation

On the top of the photo dialer unit, there are 2 sockets - "line" and "phone."  
Connect your telephone line cord (not included) into the "line" socket. Connect the supplied phone cord into the "phone" socket and your telephone (no included).

### 2) Pictures

- 1) Place the supplied symbols in the desired positions (if applicable).
- 2) Place your pictures in the desired locations.

### 3) Programming the 12 photo buttons (photo buttons are not pre-set)

- 1) Pick up your telephone receiver and place temporarily on table.
- 2) Turn over the photo dialer and pullout the protective door.
- 3) Press the "set" button
- 4) Enter the appropriate phone number
- 5) Press the appropriate photo button (on front of unit) to save the number.
- 6) Repeat these steps 3-5 to program all 12 buttons.
- 7) Once completed, put back the telephone receiver.

### 4) How to use your photo dialer

- 1) Pick up your telephone receiver.
- 2) Press the photo key you want, and the telephone dials the number automatically.

### Special note regarding the stored numbers:

Please note that as long as this photo dialer is connected to an active phone line, the stored phone numbers in the photo keys will be retained indefinitely. However, if the phone line become damaged or is disconnected, this may result in memory loss. In this case, you will have to re-program the photo keys with your phone numbers.

### FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and the receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

### CALIFORNIA PROP 65 WARNING

"WARNING" This product contains a chemicals known to the State of California to cause birth defects or other reproductive harm. For more information on these regulations and a list of chemicals, log on the following website address :

## Customer Information

1. This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. On bottom of this equipment is a label that contains, among other information, a product identifier of **US:8YMKX02BITGS450** . If requested, this number must be provided to the telephone company.
2. If this equipment ITGS-450 Photo Dialer causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. But if advance notice isn't practical, the telephone company will notify the customer as soon as possible. Also, you will be advised of your right to file a complaint with the FCC if you believe it is necessary.
3. The telephone company may make changes in this facilities, equipment, operations or procedures that could affect the operation of the equipment. If this happens the telephone company will provide advance notice in order for you to make necessary modification to maintain uninterrupted service.
4. If you experience trouble with this equipment, you disconnect it from the network until the problem has been corrected or until you are sure that the equipment is not malfunctioning.
5. Please follow instructions for repairing if any (e.g. battery replacement section); otherwise do not alternate or repair any parts of device except specified.
6. Connection to party line service is subject to state tariffs. Contact the state public utility commission public service commission or corporation commission for information.
7. If the telephone company requests information on what equipment is connected to their lines, inform them of:
  - a) The telephone number that this unit is connected to,
  - b) The ringer equivalence number **REN 0.2B**
  - c) The USOC jack required [RJ11C], and
  - d) The FCC Registration Number **US:8YMKX02B ITGS450**

Items (b) and (d) are indicated on the label. The ringer equivalence number (REN) is used to determine how many devices can be connected to your telephone line. In most areas, the sum of the RENs of all devices on any one line should not exceed five (5.0). If too many devices are attached, they may not ring properly.

**Innovative Technology Electronics Corp.**
